

RUNNERS SPECIALFLEX

**MEDIUM CIRCLE
EMBOSSED RUNNER
SLIP RESISTANT**

Art. 367

Made of an extremely elastic and plasticized PVC blend.

Good slip-resistant effect.

The empty space underneath each embossed circle create a suction for anti-slip effect.

Combats fatigue when standing for long periods.

Excellent runner to reduce foot traffic noise in areas such as corridors or passages.

A brilliant alternative for lining car or truck trunks, in order to reduce object slippage.

Fire resistance:
CE class Bfl-S1

Art. 367
Medium circle embossing
Cone shaped Ø 12/16 mm
Height 99 cm
Thickness 1.6 mm
Length 30 meters
Colors: 90-34-33-47-80-57

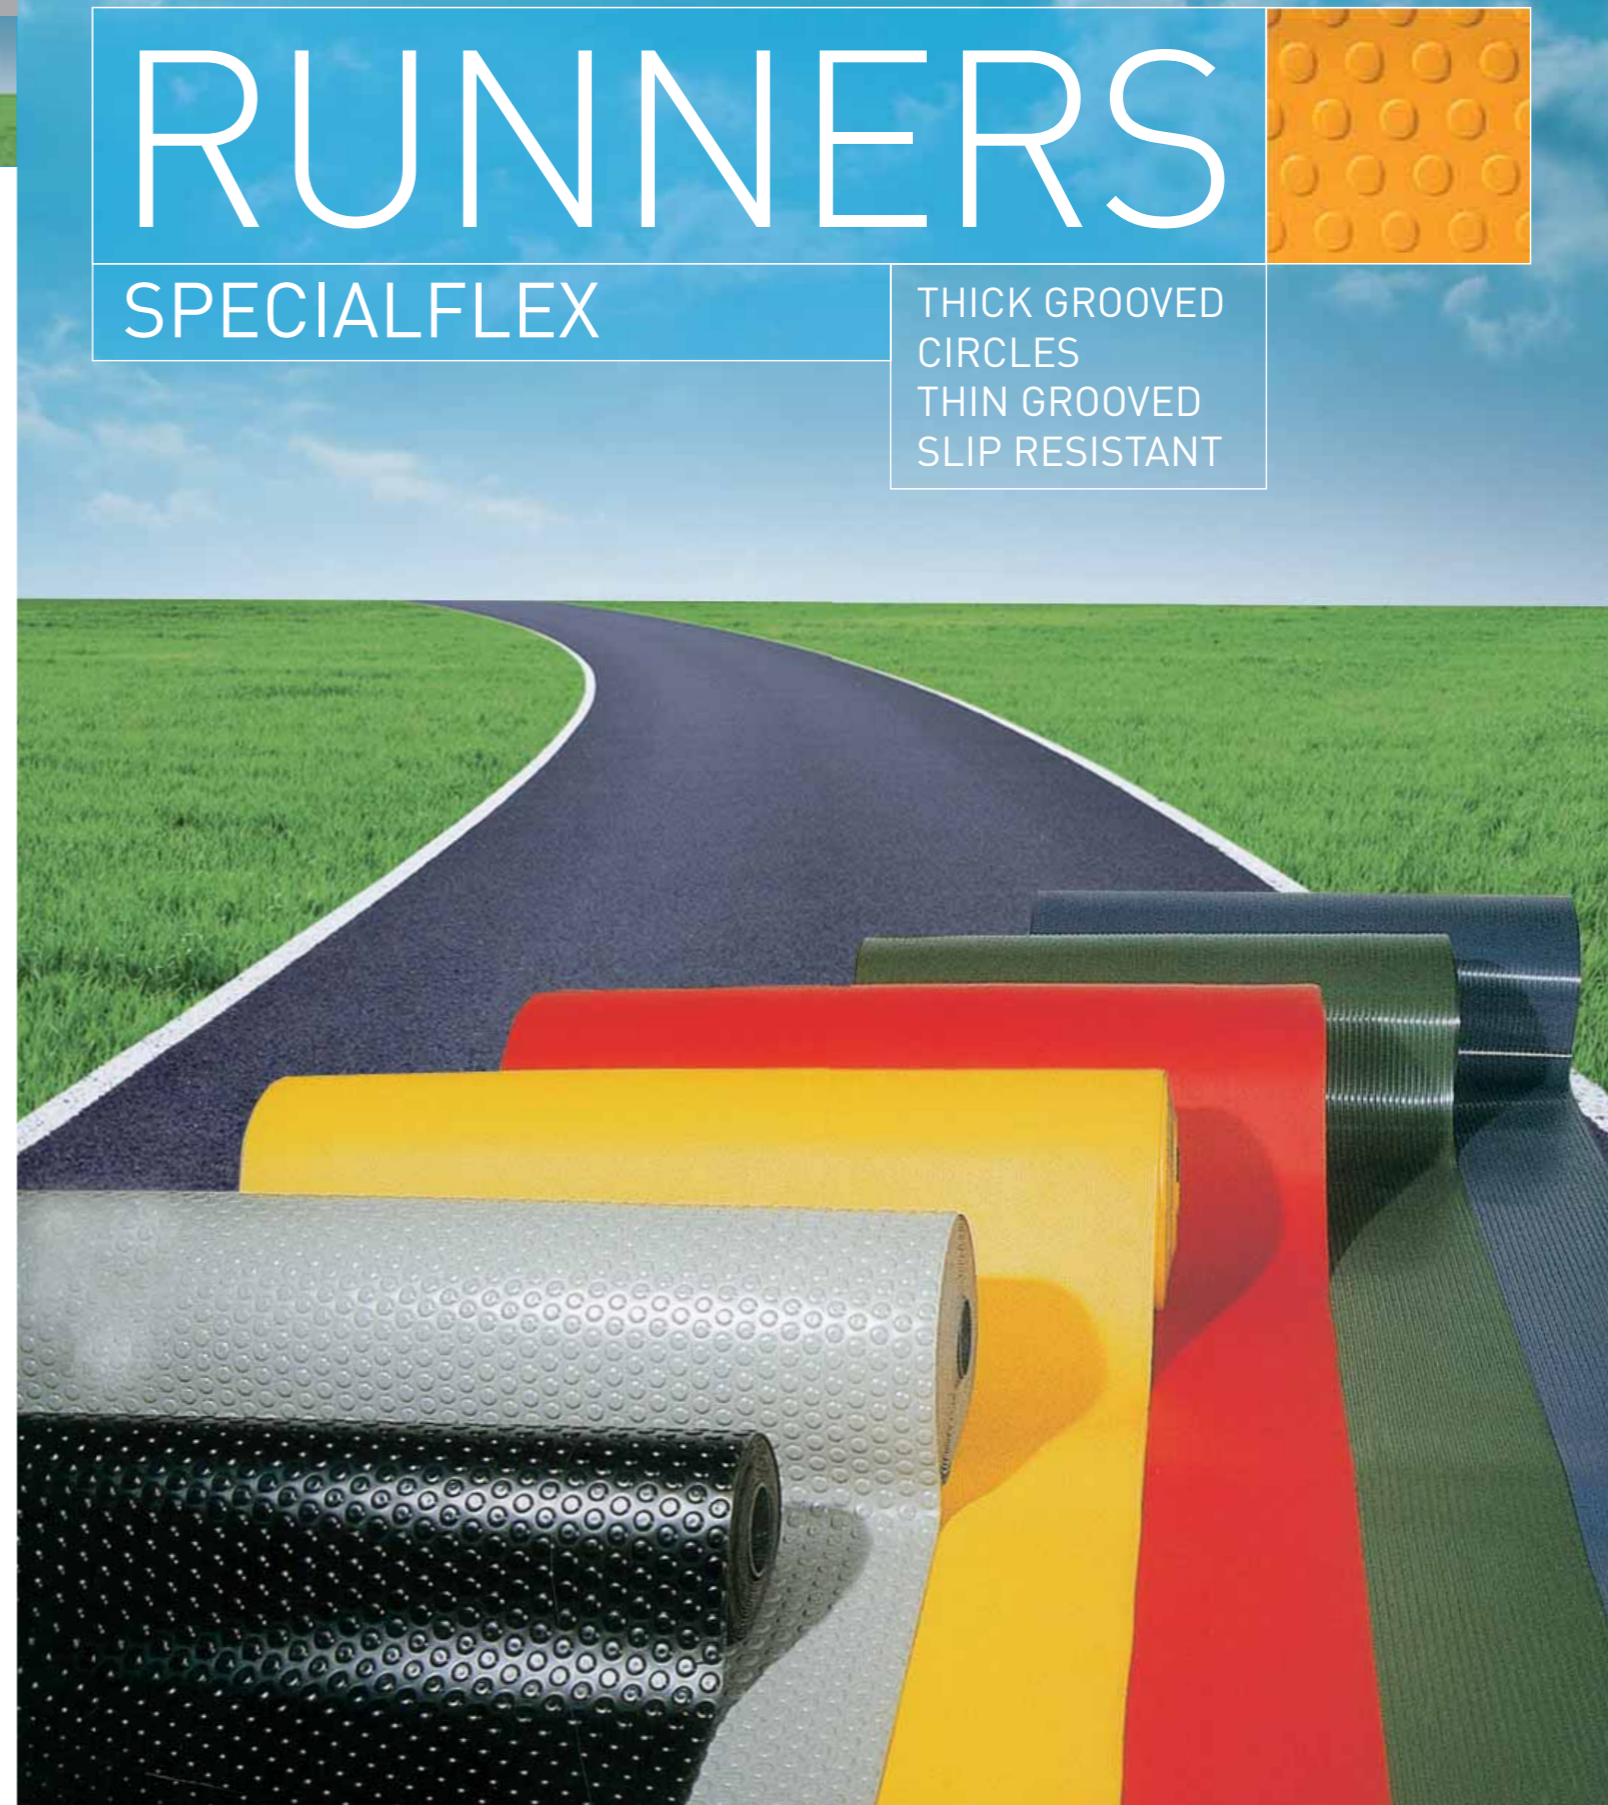

ENDLESS FLEXIBILITY

SLIP RESISTANT

RUNNERS SPECIALFLEX

Art. 363 - Embossed thick groove
Height 100 cm
Thickness 2.8 mm
Length 20 m
Colors: 10-90-34-33-20-80-70-57

THICK GROOVED RUNNER

Art. 363

Made of a blend of PVC and thermoplastic rubber, very resistant and suggested for heavy traffic areas.

Ideal for zones where there is waste or industrial liquid spillage.

Electrical Resistance:

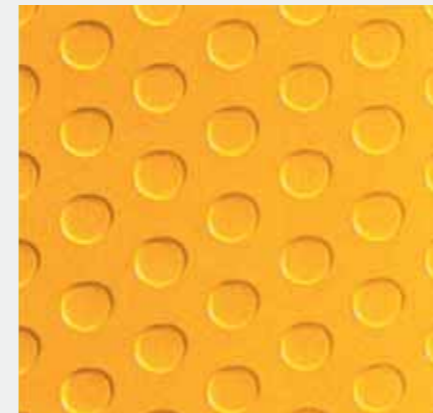

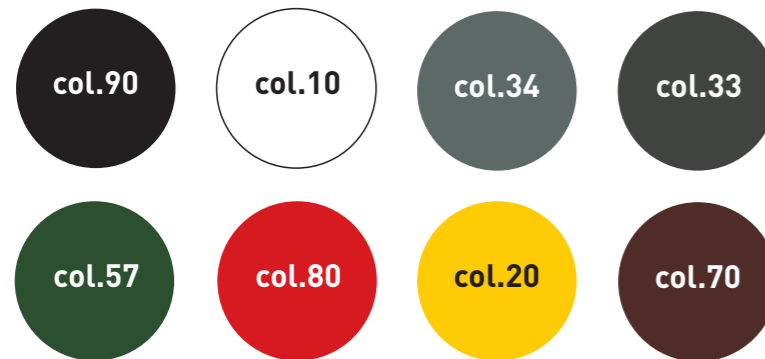

Norm DIN 53482
Volumetric Res.
RDT (ohm.cm) 1.5 10/13th power

Dielectric Strength:

Norm ASTM D149 calculated to 3 mm thickness sample at KV/mm⁹

Fire resistance:

CE class Bfl-S1

Art. 364 - Circle embossed
Height 100 cm
Thickness 2.5 mm
Length 20 m
Colors: 10-90-34-33-20-80-70-57

CIRCLE EMBOSSED RUNNER

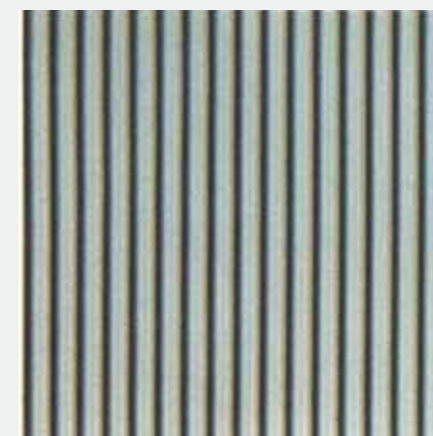

Art. 364

An alternative to traditional PVC floor design.

A versatile product which is slip resistant thanks to the high number of embossed circles on the surface.

Fire resistance:

CE class Bfl-S1

Art. 360 - Thin groove embossed
Height 100 cm
Thickness 2 mm
Length 25 meters
Colors: 10-90-34-20-80-70

THIN GROOVED RUNNER

Art. 360

A classic and functional design, ideal to cover work tables and surfaces.

The pattern makes it easy for water and other liquids to drain.

Fire resistance:

CE class Bfl-S1
